W: You may think so. But listening to the radio can increase your sense of happiness.  
M: I don't understand.  
W: Well, by listening to a radio talk show, for example, you often feel like you're part of the conversation.  
M: Hmm... That makes sense.  
W: Then, you feel emotionally connected and less lonely.  
M: And that can eventually make you happy, right?  
W: That's correct. Also, when you feel down, listening to the radio brings you joy and good laughs.  
M: Wow. I never thought that the radio has this much power.  
W: See? Listening to the radio can boost happiness.  
M: Now I understand why you love the radio so much.

W: That's good to hear. How may I help you today?

M: Well, I'd like to promote my fruit farm more actively on the Internet.

W: In that case, we can make a digital banner and display it on personal blogs and social networking sites.

M: That sounds like a good idea.

W: I'll ask my boss and call you back.

M: Great. Thank you.

W: I'm sure he'd want to go on it with you. And I see a painting of a dolphin on the slide.  
M: Jack loves dolphins. I bet he'll go up and down the slide all day.  
W: I think so, too. There's a striped bucket at the top of the slide. What's that for?  
M: Hmm... I think it pours out water every few minutes. Look at the two tents near the shower.  
W: Those must be for changing clothes.

M: That would be great. There are still a few more things that need to be done.

W: Okay. Do you want me to place the chairs for the audience?

M: No. That's not necessary. I have volunteers to do that this afternoon.

W: I see. How about hanging up the banners? I don't see them anywhere.

W: Actually, I didn't go to the audition.  
M: Really? Why not? Did you have to do something with your family?  
W: Not at all. It had nothing to do with my family.  
M: Was there a problem with your guitar again?  
W: No. My guitar works just fine.  
M: Then, why didn't you go to the audition?  
W: I had a job interview with a company I want to work for. Unfortunately, it was at the same time as the audition.

W: It went well. Thanks for asking.

The exhibition displays 100 pictures of endangered animals, including birds and fish. Under the photographs, there are explanations for why the animals in the photos are in danger of extinction. M: Hmm... How much should we spend?

W: Let's not spend more than \$100.

M: That sounds reasonable. What about the size? How tall should it be?

[16~17] 다음을 듣고, 물음에 답하시오.

W: Good morning, students. Did you know that plants can send out messages? Today, we're going to learn about the various reasons that plants communicate. First, plants communicate to call for help. When cotton plants are attacked by bugs, these plants send out a chemical signal to attract the bugs' natural enemy that eats them. Second, plants communicate to recognize their relatives. When mustard plants recognize their family members by exchanging chemical signals, they grow shorter roots to avoid competing with one another. Third, some plants communicate with other plant species to scare insects away. For example, tomato plants use low vibrating sounds to attract other plants that produce a smell, which is unpleasant to insects. Last, plants communicate to warn other plants and defend their territory. Walnut trees spread toxic chemicals to hurt or kill plants nearby. It's their way of saying, "Stay away from me." Now, let's watch some related videos.
